

950L/962L

Wheel Loaders

	950L	962L
Engine Model	Cat® C7.1 ACERT™	Cat C7.1 ACERT
Maximum Gross Power – ISO 14396	195 kW	195 kW
Maximum Net Power – ISO 9249	185 kW	185 kW
Bucket Capacities	2.7-4.4 m ³	2.7-4.4 m ³
Operating Weight	18 136 kg*	19 123 kg**

*For 3.1 m³ general purpose bucket with BOCE.

**For 3.4 m³ general purpose bucket with BOCE.

The new 950L and 962L Wheel Loaders apply proven technologies systematically and strategically to meet your high expectations for reliability, productivity, fuel efficiency, and long service life.

Reliability

- Cat C7.1 ACERT engine offers a combination of proven electronic, fuel and air systems and meets China Nonroad Stage III emission standards and U.S. EPA Tier 3/EU Stage IIIA equivalent emission standards.
- Utilizing rigorous component design and machine validation processes results in unmatched reliability, durability and high uptime.

Durability

- Tough countershaft powershift transmission and axles handle extreme applications.
- Improved hydraulic hose routing reduces potential hose wear.
- Full flow hydraulic filtration system with additional loop filtration improves hydraulic system robustness and component life.

Productivity

- Increased engine power improves machine performance and response.
- Lock-up clutch torque converter, combined with lock-to-lock shifting, delivers smooth shifts, fast acceleration and speed on grade.
- High capacity torque converter results in greater digging efficiency.
- Easy-to-load Performance Series Buckets feature a wider mouth and curved side plates that improve material retention (fill factor) and decrease cycle times.

Fuel Efficiency

- Up to 10% lower fuel consumption than H Series.*
- Power dense ACERT engine burns less fuel by providing power and torque when needed.

*Actual results may vary based on factors such as, but not limited to, machine configuration, operator technique, machine application, climate, etc.

Ease of Operation

- New best-in-class operator environment provides unmatched comfort, visibility, and efficiency.
- Intuitive, ergonomic controls keep operators focused on their work.

Safety

- Excellent cab access with wide door and stair-like steps.
- Floor to ceiling windshield, large mirrors with integrated spot mirrors and rear vision camera provide industry leading all-around visibility.

Serviceability

- One-piece tilting hood with side and rear doors; hydraulic and electrical service centers make access fast and easy.
- Safe ground level access to fuel fill, oil fill, filters and daily maintenance points means less servicing time required.

Reliable

Proven components and technology
you can count on.

Caterpillar Designed Components

- Utilizing rigorous design and machine validation processes have delivered unmatched reliability, durability and high uptime for generations.
- Components used to build Cat wheel loaders are designed and manufactured to Caterpillar quality standards to ensure maximum performance even in extreme operating conditions.
- Heavy duty components reduce the risk of premature wear resulting in increased uptime and reduce operating costs over the lifetime of the machine.

Equipment Monitoring

- Monitoring product health is key to maintaining reliability of any equipment.
- Cat Connect technologies (Product Link™, VisionLink®) take the guesswork out of equipment management.
- Many programs offered by your Cat dealer make tracking your machine health quick and easy.

Renowned Cat Dealer Support

- Cat dealers provide the best support when it comes to servicing your machine increasing your uptime on the job site.
- Preventive maintenance programs like Scheduled Oil Sampling (S-O-SSM) analysis or comprehensive Customer Support Agreements help reduce lifetime maintenance costs.
- Best-in-class parts availability maximizes uptime.

Durable
Better designed to meet your needs.

Power Train

- Cat C7.1 engine with ACERT technology maintains engine performance, efficiency and durability.
- Tough countershaft powershift transmission and axles handle extreme applications effectively resulting in reliable performance and durable life.
- Front axle is rigidly mounted to the frame in order to withstand internal torque loads and still maintain support for the wheel loader.
- Rear axle can oscillate to ± 13 degrees helping to ensure all four wheels stay on the ground providing stability even in the roughest terrain, for excellent stability and traction.

Hydraulic System

- Improved hydraulic hose routing reduces potential hose wear.
- Full flow hydraulic filtration system with additional loop filtration improves hydraulic system robustness and component life.

Linkage, Buckets and Frames

- Proven Z-bar linkage with Performance Series Buckets offers excellent penetration into the pile, high breakout forces, good roll back angles and faster dig times resulting in improved tire life, superior fuel efficiency and exceptional production capabilities.
- Robotically welded two-piece structural frame design provides strong and rigid structures that absorb all the forces associated to penetration, loading and twisting.
- The L Series articulating hitch system, joins the front and rear frames, providing increased bearing force capacity.

Productive

Work smart and move more.

Engine

- Increased engine power in the 950L by approximately 22% and 8% in the 962L (compared to H series) improves machine performance and response.

Transmission

- 5-speed transmission includes a lock up clutch torque converter, standard, that matches engine power and hydraulics to maximize machine performance and fuel efficiency.

Performance Series Buckets

- Easy-to-load Performance Series Buckets feature wider mouth, longer floor and curved side plates that improve material retention (fill factor) and decrease cycle times.

Dealer Support

- Your Cat dealer can help with operator training to help boost your productivity and profits.

Fine-tuned technologies for the right applications

- Lock-up clutch torque converter, combined with lock-to-lock shifting, delivers smooth shifts, fast acceleration and speed on grade.
- High capacity torque converter results in greater digging efficiency.
- Z-bar linkage provides high breakout force at ground level in bucket applications.
- Optional high lift linkage offers increased hinge pin height to load more easily.
- Optional fully automatic traction control system (differential locks) improves performance in the pile and poor underfoot conditions while reducing tire wear with no operator intervention required.

Fuel Efficient

Engineered to lower your operating costs.

Engine and Emissions

- Cat C7.1 ACERT engine is designed for maximum fuel efficiency and increased power density, while meeting China Nonroad Stage III emission standards and Tier 3/Stage IIIA equivalent emission standards.
- Engine features innovative Cat electronics, fuel injection process, and air-management systems, reducing fuel consumption.

Efficient Systems and Components

- Innovative systems intelligently lower average working engine speeds and reduce overall system heat loads resulting in significantly improved performance and fuel efficiency.

Advanced Systems with Innovative Integration

- Deep system integration of new engine, power train, hydraulic system and cooling system result in lower fuel consumption on average compared to H Series.

- Up to 10% lower fuel consumption than H Series.*
- Power dense ACERT engine burns less fuel by providing power and torque when needed.
- Performance Series Buckets feature a longer floor that easily digs through the pile resulting in lower fuel consumption.
- Productive Economy Mode provides maximum fuel savings with minimal productivity impact.
- Load sensing hydraulics result in proportional flow for implement and steering on demand.
- On-Demand Fan improves fuel efficiency, lower noise levels and reduced radiator plugging.
- Engine Idle Management System (EIMS) maximizes fuel efficiency by reducing engine rpm.
- Engine Idle Shutdown saves fuel and reduces hour accumulation on your machine.

*Actual results may vary based on factors such as, but not limited to, machine configuration, operator technique, machine application, climate, etc.

Easy to Operate

Safe. Comfortable. Efficient.

Operator Environment

- New best-in-class operator environment features four post Roll Over Protection System (ROPS) cab providing unmatched comfort, visibility, and efficiency.
- Seat-mounted implement controls provide operators with precise control of the work tool, all while moving with the seat for maximum comfort.
- Low-effort steering wheel offers precise control in demanding operations.
- New, streamlined control panel includes easy to reach highly utilized machine controls increasing operator efficiency.
- Viscous cab mounts connect cab to frame of machine, decreasing noise and vibration resulting in a sustainable work environment and well-rested efficient, productive operator.
- Optional new ride control system with dual accumulators provides excellent ride quality and lowers cab vibrations.

Safety

- Excellent cab access with wide door and stair-like steps.
- Floor to ceiling windshield, large mirrors with integrated spot mirrors and rear vision camera provide industry leading all-around visibility.
- Robust, repositioned grab bars provide safe access to machine platforms.
- Integrated rear vision camera enhances visibility behind machine helping operators work safely and productively.

Serviceable

Easy to maintain. Easy to service.

Engine Access

- One-piece tilting hood with side and rear doors makes access fast and easy.
- Best-in-class service access to engine, oil levels and coolant sight gauge means less servicing time required.

Service Centers

- Electrical and hydraulic service centers provide grouped ground level access enhancing safety and convenience while reducing service time.
- Safe, ground level access to fuel fill, daily maintenance points and many filters means less servicing time required.

Parking Brake

- External caliper disc parking brakes are easily accessible for inspection and service.

Cooling System

- Cooling system is readily accessible for clean out and maintenance.
- Hydraulic and A/C cooler cores swing out providing easy access to both sides for cleaning.
- Access panel on left side of cooling package swings down to provide access to back side of engine coolant and Air-to-Air After Cooler (ATAAC).
- Optional variable pitch fan can automatically purge cooler cores by periodically reversing airflow when needed.

Cat Connect Technology

Monitor, manage, and enhance job site operations.

LINK Technologies

VisionLink enables owners to access data wirelessly to monitor machine health, utilization and location.

PAYLOAD Technologies

Accurately weigh materials being loaded and hauled to improve productivity, reduce overloading, and track material movement.

Cat Production Measurement (optional)

- Provides simple, accurate, on-the-go weighing to assist operators in delivering exact loads and working more efficiently.
- Intuitive user interface, within standard touch screen display, provides essential payload information in an easy-to-read, user-friendly format.
- Site managers can wirelessly access data via the VisionLink web portal to measure production and monitor efficiency.

DETECT Technologies

Enhance operator awareness of the environment around working equipment and provide alerts to help keep people and assets safe.

Rear Vision Camera

- Integrated rear vision camera enhances visibility behind machine.

Versatile

Do more jobs with one machine.

Fusion™ Quick Coupler

Improved Machine Performance

- Fusion Coupler System (patented) provides performance virtually identical to pin on – with all the flexibility of a quick coupler system.
- The Fusion Coupler sits back, close into the loader arms – minimizing offset and increasing the machine’s performance.

No Loss of Performance

- Fusion is designed to integrate the work tool and the machine by pulling the coupler and tool closer into the loader which translates to increased lifting ability when compared to machines equipped with other coupler systems.

Unsurpassed Durability

- Advanced wedging mechanism creates tight, rattle-free fit which eliminates play and wear – resulting in long service life.

Performance Series Buckets

Load Easy, Fuel Efficient, Carry More

- Buckets utilize a system based approach to balance bucket shape with machine’s linkage, weight, lift and tilt capacities.
- Reduced dig times and better material retention results in significant productivity and fuel efficiency improvements.

Lower Operating Costs

- Buckets feature longer floor that easily digs through pile and provides excellent visibility for operators to see when bucket is full.
- Less time digging in the pile results in lower fuel consumption and improved tire life.
- Unique spill guard protects cab and linkage components from material overflow.

Higher Productivity

- Buckets achieve higher fill factors – ranging from 100% to 115% depending on the machine application and material type due to curved side profile.

Owning Costs

Proven best investment.

Cat Product Link

- Cat Product Link allows remote monitoring of equipment to improve overall fleet management effectiveness.
- Product Link is deeply integrated into machine systems; information such as events, diagnostic codes, hours, fuel, idle time and other detailed information are transmitted to a secure web based application, VisionLink.
- VisionLink includes powerful tools to convey information to users and dealers, including mapping, working and idle time, fuel level and more.

S-O-S Services

- Help manage component life and decrease machine downtime, increasing productivity and efficiency.
- Regular fluid sampling can help track what is going on inside your machine. Wear related problems are predictable and easily repairable.
- Maintenance can be done to accommodate your schedule, resulting in increased uptime and flexibility in maintenance repairs before failure.

Parts Availability

- Caterpillar provides an unsurpassed level of personalized service to help you work more cost effectively and efficiently.
- By utilizing a worldwide parts network Cat dealers help minimize machine downtime and save money by fast delivery of replacement parts.

Resale Value

- Caterpillar is not only known for machines that are better built, but provides product and dealer support to maintain the reliability and durability of your machine.

Operating Costs

Save time and money by working smart.

Most Fuel Efficient Machines in Industry

- Data from customer machines show Cat wheel loaders are the most fuel efficient machines in the industry.

Engine, Hydraulics and Transmission

- Deep system integration results in more productivity, lower fuel consumption, without interrupting machine performance – making it seamless to you and your operators.

Lock-up-Clutch Torque Converter and Shift Strategy

- Reduced torque interruption increases driveline efficiency, conserving fuel; auto 1-5 transmission mode keeps engine rpm low, reducing fuel consumption while delivering optimal machine performance.

Performance Series Buckets

- Performance Series buckets deliver faster fill times and better material retention, ultimately reducing cycle times while improving productivity and fuel efficiency.

Optional Automatic Traction Control (Differential Locks)

- Automatic traction control, with no operator intervention required, increases traction and reduces tire scuffing compared to other traction aids, further reducing your operating costs.

External Caliper Disc Parking Brakes

- External caliper disc parking brakes do not have the inefficiencies of enclosed wet parking brakes due to brake discs running in oil nor is there any oil to change reducing fuel and maintenance costs.

950L/962L Wheel Loaders Specifications

Engine – 950L

Engine Model	Cat C7.1 ACERT	
Maximum Gross Power (2,000 rpm)		
ISO 14396	195 kW	265 hp (metric)
Maximum Net Power (2,000 rpm)		
ISO 9249	185 kW	252 hp (metric)
Peak Gross Torque (1,400 rpm)		
ISO 14396	1050 N·m	
Maximum Net Torque (1,400 rpm)		
ISO 14396	984 N·m	
Bore	105 mm	
Stroke	135 mm	
Displacement	7.01 L	

- Cat engine with ACERT Technology – meets China Nonroad Stage III emission standards and Tier 3/Stage IIIA equivalent emission standards.
- The power ratings apply at the stated speed when tested under the reference conditions for the specified standards.
- The net power advertised is the power available at the flywheel when the engine is equipped with fan, alternator, air cleaner and aftertreatment.
- The gross power advertised is with the fan at maximum speed.

Buckets – 950L

Bucket Capacities	2.7-4.4 m ³
-------------------	------------------------

Weight – 950L

Operating Weight	18 136 kg
------------------	-----------

- Weight based on a machine configuration with Michelin 23.5R25 XHA2 L3 radial tires, full fluids, operator, standard counterweight, cold start, roading fenders, Product Link, open/open axles (front/rear), power train guard, secondary steering, sound suppression and a 3.1 m³ general purpose bucket with BOCE.

Operating Specifications – 950L

Static Tipping Load – Full 40° Turn		
With Tire Deflection	10 926 kg	
No Tire Deflection	11 624 kg	
Breakout Force	152 kN	

- Full compliance to ISO (2007) 143971 Sections 1 thru 6, which requires 2% verification between calculations and testing.

Engine – 962L

Engine Model	Cat C7.1 ACERT	
Maximum Gross Power (2,000 rpm)		
ISO 14396	195 kW	265 hp (metric)
Maximum Net Power (2,000 rpm)		
ISO 9249	185 kW	252 hp (metric)
Peak Gross Torque (1,400 rpm)		
ISO 14396	1050 N·m	
Maximum Net Torque (1,400 rpm)		
ISO 14396	984 N·m	
Bore	105 mm	
Stroke	135 mm	
Displacement	7.01 L	

- Cat engine with ACERT Technology – meets China Nonroad Stage III emission standards and Tier 3/Stage IIIA equivalent emission standards.
- The power ratings apply at the stated speed when tested under the reference conditions for the specified standards.
- The net power advertised is the power available at the flywheel when the engine is equipped with fan, alternator, air cleaner and aftertreatment.
- The gross power advertised is with the fan at maximum speed.

Buckets – 962L

Bucket Capacities	2.7-4.4 m ³
-------------------	------------------------

Weight – 962L

Operating Weight	19 123 kg
------------------	-----------

- Weight based on a machine configuration with Michelin 23.5R25 XHA2 L3 radial tires, full fluids, operator, standard counterweight, cold start, roading fenders, Product Link, open/open axles (front/rear), power train guard, secondary steering, sound suppression and a 3.4 m³ general purpose bucket with BOCE.

Operating Specifications – 962L

Static Tipping Load – Full 40° Turn		
With Tire Deflection	11 700 kg	
No Tire Deflection	12 455 kg	
Breakout Force	146 kN	

- Full compliance to ISO (2007) 143971 Sections 1 thru 6, which requires 2% verification between calculations and testing.

950L/962L Wheel Loaders Specifications

Transmission

Forward 1	6.9 km/h
Forward 2	12 km/h
Forward 3	19.3 km/h
Forward 4	25.7 km/h
Forward 5	39.5 km/h
Reverse 1	6.9 km/h
Reverse 2	12 km/h
Reverse 3	25.7 km/h

- Maximum travel speed in standard vehicle with empty bucket and standard L3 tires with 787 mm roll radius.

Hydraulic System

Implement Pump Type	Variable axial piston
Implement System	
Maximum Pump Output (2,340 rpm) ($\eta_{vol} = 95\%$)	245 L/min
Maximum Operating Pressure	27 900 kPa
Optional 3rd/4th Function Maximum Flow	240 L/min
Optional 3rd/4th Function Maximum Pressure	21 780 kPa
Hydraulic Cycle Time with Rated Payload:	
Raise from Carry Position	5.3 Seconds
Dump, at Maximum Raise	1.4 Seconds
Lower, Empty, Float Down	2.8 Seconds
Total	9.5 Seconds

Brakes– 950L

Brakes	Brakes meet ISO 3450 standards
--------	--------------------------------

Axles – 950L

Front	Fixed
Rear	Oscillating ± 13 degrees
Maximum Single-Wheel Rise and Fall	481 mm

Cab

ROPS/FOPS	ROPS/FOPS meet ISO 3471 and ISO 3449 Level II standards
-----------	---

Sound – 950L

The sound values indicated below are for specific operating conditions only. Machine and operator sound levels will vary at different engine and/or cooling fan speeds. Hearing protection may be needed when the machine is operated with a cabin that is not properly maintained, or when the doors and/or windows are open for extended periods or in a noisy environment.

With Cooling Fan Speed at Maximum Value:

Operator Sound Pressure Level (ISO 6396:2008)	72 dB(A)
Exterior Sound Power Level (ISO 6395:2008)	107 dB(A)
Exterior Sound Pressure Level (SAE J88:2013)	75 dB(A)*

With Cooling Fan Speed at 70% of Maximum Value:**

Operator Sound Pressure Level (ISO 6396:2008)	69 dB(A)
Exterior Sound Power Level (ISO 6395:2008)	104 L _{WA} ***

*Distance of 15 m, moving forward in second gear ratio.

**For machines in countries that adopt the “EU Directives.”

***European Union Directives “2000/14/EC” as amended by “2005/88/EC.”

Service Refill Capacities

Fuel Tank	275 L
Cooling System	58.6 L
Engine Crankcase	22 L
Transmission	43 L
Differentials and Final Drives – Front	43 L
Differentials and Final Drives – Rear	43 L
Hydraulic Tank	125 L

950L/962L Wheel Loaders Specifications

950L Dimensions

All dimensions are approximate.

	Standard Lift	High Lift
1 Height to Axle Centerline	747 mm	747 mm
2 Height to Top of Hood	2697 mm	2697 mm
3 Height to Top of Exhaust Pipe	3415 mm	3415 mm
4 Height to Top of ROPS	3446 mm	3446 mm
5 Height to Top of Product Link Antenna	3477 mm	3477 mm
6 Height to Top of Warning Beacon	3747 mm	3747 mm
7 Ground Clearance	368 mm	368 mm
8 Center Line of Rear Axle to Edge of Counterweight	2083 mm	2071 mm
9 Center Line of Rear Axle to Hitch	1675 mm	1675 mm
10 Wheelbase	3350 mm	3350 mm
11 Overall Length (without bucket)	6939 mm	7428 mm
12 Shipping Length (with bucket level on ground)*†	8249 mm	8788 mm
13 Hinge Pin Height at Carry Height	663 mm	765 mm
14 Hinge Pin Height at Maximum Lift	3995 mm	4490 mm
15 Lift Arm Clearance at Maximum Lift	3410 mm	3794 mm
16 Dump Clearance at Maximum Lift and 45° Discharge*†	2856 mm	3351 mm
17 Reach at Maximum Lift and 45° Discharge*†	1319 mm	1387 mm
18 Dump Angle at Maximum Lift and Dump (on stops)*	53 degrees	50 degrees
19 Rack Back at Maximum Lift*	60 degrees	66 degrees
20 Rack Back at Carry Height*	49 degrees	54 degrees
21 Rack Back at Ground*	41 degrees	45 degrees
22 Clearance Circle (radius) to Counterweight	6026 mm	6027 mm
23 Clearance Circle (radius) to Outside of Tires	5984 mm	5984 mm
24 Clearance Circle (radius) to Inside of Tires	3218 mm	3218 mm
25 Width Over Tires (unloaded)	2814 mm	2814 mm
Width Over Tires (loaded)	2822 mm	2822 mm
26 Tread Width	2140 mm	2140 mm

*With 3.1 m³ general purpose pin on bucket with BOCE (see Operating Specifications for other Buckets).

†Dimensions are listed in Operating Specifications charts.

All height and tire related dimensions are with Michelin 23.5R25 XHA2 L3 radial tires (see Tire Option Chart for other tires).

“Width Over Tires” dimensions are over the bulge and include growth.

950L/962L Wheel Loaders Specifications

962L Dimensions

All dimensions are approximate.

	Standard Lift	High Lift
1 Height to Axle Centerline	744 mm	744 mm

950L/962L Wheel Loaders Specifications

950L Bucket Fill Factors and Selection Chart

The bucket size must be chosen based on the density of the material and on the expected fill factor. The new Cat Performance Series Buckets with longer floor, larger bucket opening, increased repository angle, rounded side boards and integrated spill guard, demonstrate fill factors significantly higher than previous generation or non Cat buckets. The actual volume handled by the machine is thus often larger than the rated capacity.

Loose Material		Material Density	Fill Factor (%)*
Earth/Clay		1500-1700 kg/m ³	115
Sand and Gravel		1500-1700 kg/m ³	115
Aggregate:	25-76 mm	1600-1700 kg/m ³	110
	19 mm and smaller	1800 kg/m ³	105
Rock:	76 mm and larger	1600 kg/m ³	100

*As a % of ISO rated capacity.

Note: Fill Factors achieved will also depend on whether the product is washed or not washed.

Note: All buckets are showing Bolt-on Edges except the Rock Bucket is showing Tips.

Standard Equipment

Standard equipment may vary. Consult your Cat dealer for details.

OPERATOR ENVIRONMENT

- Cab, pressurized and sound suppressed (ROPS/FOPS)
- Viscous mounts
- Rear vision camera within multi-function 18 cm color LCD touch-screen display (*capability for displaying machine status, setting and health parameters*)
- EH controls, SAL (single axis lever) lift and tilt function
- Steering, steering wheel
- Radio ready (entertainment) includes antenna, speakers and converter (12V, 10-amp)
- Air conditioner, heater, and defroster (auto temp and fan)
- EH parking brake
- Beverage holders (2) with storage compartment for cell phone/MP3 player
- Bucket/work tool function lockout
- Coat hook
- Cab air filter
- Ergonomic cab access ladders and handrails
- Horn, electric
- Light, two dome (cab)
- Mirrors, rearview external with integrated spot mirrors
- Post mounted membrane 16 switch keypad
- Two receptacles, 12V
- Seat, Cat Comfort (cloth) air suspension
- Seat belt, 51 mm retractable
- Sun visor, front
- Wet-arm wipers/washers front and rear, intermittent front wiper
- Window, sliding (left and right sides)
- Cab tie-off

COMPUTERIZED MONITORING SYSTEM

- With following gauges:
 - Speedometer/tachometer
 - Digital gear range indicator
 - Temperature: engine coolant, hydraulic oil, transmission oil
 - Fuel level

- With following warning indicators:
 - Temperature: axle oil, engine intake manifold
 - Pressure: engine oil, fuel pressure hi/low, primary steering oil, service brake oil
 - Battery voltage hi/low
 - Engine air filter restriction
 - Hydraulic oil filter restriction
 - Hydraulic oil low
 - Parking brake
 - Transmission filter bypass

ELECTRICAL AND LIGHTING

- Batteries (2), maintenance free 1,400 CCA
- Ignition key; start/stop switch
- Starter, electric, heavy duty
- Starting and charging system (24V)
- Lighting system:
 - Four halogen work lights (cab mounted)
 - Two LED stop, turn, tail lights
 - Two halogen roading lights (with signals)
 - Two halogen rear vision lights (hood mounted)
- Alarm, back-up
- Alternator, 145-amp brushed
- Main disconnect switch
- Receptacle start (cables not included)

CAT CONNECT TECHNOLOGIES

- Link technologies: Product Link
- Detect technologies: rear vision camera

POWER TRAIN

- Engine, Cat C7.1 ACERT – meets Tier 3/ Stage IIIA equivalent and China Nonroad Stage III emission standards
- Fuel priming pump (electric)
- Fuel/water separator
- Rain caps, engine air intake
- Economy Mode (selectable)
- Transmission, automatic countershaft power shift (5F/3R)
- Torque converter, locking clutch with free wheel stator
- Switch, transmission neutralizer lockout
- Axles, open differential front and rear axles
- Brakes, full hydraulic enclosed wet-disc with Integrated Braking System (IBS)
- Brake wear indicators
- Parking brake, disc and caliper
- Fan, radiator, electronically controlled, hydraulically driven, temperature sensing, on demand

LINKAGE

- Linkage, Z-bar, cast crosstube/tilt lever
- Kickout, lift and tilt, automatic (adjustable in cab)

HYDRAULICS

- Hydraulic system, load sensing
- Steering, load sensing
- 2V
- Remote diagnostic pressure taps
- Hoses, Cat XT™
- Couplings, Cat O-ring face seal
- Hydraulic oil cooler (swing out)
- Oil sampling valves

FLUIDS

- Premixed extended life coolant with freeze protection to –34° C

OTHER STANDARD EQUIPMENT

- Hood, non-metallic power tilting
- Service centers (electrical and hydraulic)
- Auto idle shutdown
- Fenders, front with mud-flap
- Ecology drains for engine, transmission, and hydraulics
- Grill, airborne debris
- Filters: fuel, engine air, engine oil, hydraulic oil, transmission
- Grease zerks
- Hitch, drawbar with pin
- Precleaner rain cap
- Sight gauges: engine coolant, hydraulic oil, and transmission oil level
- Toolbox
- Vandalism protection caplocks

950L/962L Optional Equipment

Optional Equipment

Optional equipment may vary. Consult your Cat dealer for details.

OPERATOR ENVIRONMENT

- Cover, HVAC metallic
- EH controls, SAL 3rd function
- EH controls, joystick lift and tilt
 - Additional integrated roller switches for 3rd function
- Filter, carbon fresh air
- Mirrors, heated rearview external with integrated spot mirrors
- Precleaner, HVAC
- Radio, AM/FM/USB/MP3 Bluetooth™
- Radio, AM/FM/CD/USB/MP3 Bluetooth
- Radio, CB ready
- Seat, heated air suspension
- Seat belt, 76 mm retractable
- Roof, metallic
- Steering, secondary
- Sun visor, rear
- Windows, rubber mounted
- Windows, with front guard
- Windows, with full guards front, rear and sides

ELECTRICAL AND LIGHTING

- Four additional auxiliary halogen cab mounted work lights or
- Two additional auxiliary front HI LED and two additional auxiliary rear LED cab mounted work lights with two LED work lights in the radiator grill and LED front turn signals also includes replacement of the standard four halogen cab mounted work lights with four LED work lights (the standard offering and only roading light available is the halogen roading light)
- Warning amber strobe beacon
- Reversing strobes

STARTERS, BATTERIES, AND ALTERNATORS

- Cold start – 120V
- Cold start – 240V

CAT CONNECT TECHNOLOGIES

- Link technologies: VIMS™
- Payload technologies:
 - Aggregate Autodig
 - Cat Production Measurement
 - Printer, Cat Production Measurement
- Detect technologies: dedicated display for rear vision camera, full-time activation
- Machine Security System

POWER TRAIN

- Axles
 - Automatic front/rear differential locks
 - Axle oil cooler
 - Ecology drains
 - Extreme temperature seals
 - Seal guards
- Fan, VPF (variable pitch fan), automatic and manual control
- Radiator, high debris with wider fin spacing

LINKAGE

- High lift
- Forestry
- Extended capacity (962M only)
- Quick coupler ready
- Autolube

WORK TOOLS

- Performance Series buckets
- Fusion quick coupler
- Forks, pallet
- Forks, logging

HYDRAULICS

- Ride control
- 3rd function with Ride Control
 - Standard linkage
 - High lift linkage
 - Forestry linkage

FLUIDS

- Premixed extended life coolant with freeze protection to –50° C

OTHER OPTIONAL EQUIPMENT

- Fenders, roading
- Guard, power train
- Precleaner, turbine
- Precleaner, trash
- Platform, window washing
- Cold weather package
 - Transmission filter bypass
 - Fan pump bypass
 - Jacket water or engine block heater
 - Ether aid ready

OTHER OPTIONAL CONFIGURATIONS

- Industrial and Waste Handler
- Forestry (950L)
- Port and Harbor (950L)
